

Lloyd,

Thank you so much for coming to speak to our class during Career Week! The kids learned so much, and I really appreciate you taking time out of your busy schedule to come in and share your job with us. You have really inspired these students for the future. Thanks again! 😊

Warmly,
Chloe Cole

Dear Paddy,

I really liked how we got to hold what solar panels are made of. I learned that if lightning hits a solar panel then it goes to the ground. Thank you for taking time out of your work to come and talk to us.

Love,

Mia

Dear Mr Lee,

I learned alot about Solar
energy I didnt no that is important
good job. Thankyou.

your friend,
Jacob

January 25, 2017

Dear Mr. Lee,

I liked the solar panels because you taught me a lot about your job.

I also have a connection that I saw a house with some on it. Thank you so much.

Sincerely,
Caroline

Dear Mr. Lee,

I'm so glad we got to
learn all about your job.
I loved learning about
Solar Panels and hope
I have one on my
house some day!

Love,

Ainsley

Dear Mr. Lee

It is really cool that
you work with
solar panels for a
living. Thank you for saving
energy and making the
world a better place.

From,
Sophia

Dear Mr. Lee 1-25-17

Its super cool getting to
hold a solar panel. I cant
waite to put solar panels
on my roof. Thank you.

Sincerely
John

Thank
you

1-25-17

Dear Mr. Lee

I really liked your job.

I liked the three

Solar pens they were

so so so cool.

I will try to be that
judo I bet it is someone
hard!

Sincerely,

Ella

Dear ~~Mr. Lee~~,

I like the solar panels.
That is the second thing I want to be.
Thank you for coming to over
to over class room. Have a great
day.

love,
Carson

1-26-17

Dear Mr. Lee

I really liked learning about your job. I learned solar panels are really big. I really liked your presentation. Thank you for coming.

Sincerely,
Marlee
